Profile

Military Nurse with 25 years of service in the French Armed Forces. I have served in various branches including the Navy, Army, Volunteer Firefighters, Gendarmerie, and the Air and Space Force—in both hospital and field environments, in mainland France and overseas. With this wide range of experience and specialized skills, and officially recognized as injured in service (RQTH status), I am highly motivated and committed to continuing my career in healthcare on the island of La Réunion. My goal is to secure a Reserved Public Sector Position as a Nurse adapted to my condition.
